

YEAR 6 MATHS HOME LEARNING

Dear Parent/Carer,

As part of Year 6 home learning, the children are expected to complete set tasks in a Maths home learning book, designed to support the children in achieving their potential this year. Also, the responsibility of taking their book home and returning it to school on time will help prepare them for the homework demands of secondary school.

The book, from the Rising Stars Achieve 100 series, is available in book shops and online (Amazon currently charge £5.99). However, we would like to offer the book to the Year 6 children for just £2. The school is able to bulk buy at a discounted rate and will subsidise any additional costs.

Please return both the slip and £2 in an envelope, as soon as possible, and we will provide your child with their book. We are hoping to set the first home learning task the week beginning, 3 October.

Many thanks,

The Year 6 Team
