

Dear Parents and Carers,

As the new school year has begun, we will be setting homework on the Mathletics website. This year, the majority of children's maths home learning will be set through Mathletics. Your child will have a specific task to complete, which will automatically load upon log in, and once they have done it they will unlock the rest of the website. So if they do their homework, they can carry on having fun.

Access Mathletics through the school website:

www.eliotbank.lewisham.sch.uk

Or

Download the Mathletics app for free at:

[http://www.3plearning.com/uk/mathleticsapps/student/
#download](http://www.3plearning.com/uk/mathleticsapps/student/#download)

It even includes an offline mode which syncs to your account once the internet is available again.

Have fun!

The Maths Team
