Identified Barriers To Educational Achievement

Eliot Bank has identified the following as barriers for some of the pupils currently in receipt of Pupil Premium:

- Focus 1 Access to language – both spoken and written. Either a speech and language need or delay or a lack of exposure to vocabulary or language structures which will support their academic achievement.
- Focus 2 Emotional well-being and development of resilience
- Focus 3 Behaviour – pupils with specific social and emotional needs which affect their learning
- Focus 4 Attendance and punctuality
- Focus 5 Parental engagement with school - especially regarding attendance at information and workshop evenings and completion of home learning
- Focus 6 Opportunities for enrichment for high attaining Pupil Premium Pupils
- Focus 7 Lack of aspiration for the future
- Focus 8 Closing the gender gap between boys and girls to ensure boys achieve as well as girls in all areas

Rationale For Expenditure

All expenditure is based on data analysis and detailed knowledge of our families.

This year our priority is closing the gender gap between boys and girls.

The Learning Mentor and Family Support worker are specifically deployed to support PP children with their academic resilience, behaviour management and social communication that, without support may lack aspiration and therefore fail to reach their full potential. This could be supporting the child in class, in small groups and 1 to 1.

Our higher attaining Pupil Premium pupils will continue to be a priority. We will continue to ensure we fully support them with access to a broader education including additional excursions which will be funded through the PP grant.
